**Subject:** Draft email to CO Ag Stakeholders about new Gold King Mine website

Paula and Rich,

I am getting questions from ag associations on behalf of their affected members and I want to refer these folks to the right people. Below is a draft email that I can send to the CO Ag stakeholder listserv. However, I am not sure what to say about the 800#. Joan let me know that Melissa is the PIO for all ag related questions and I assume that is just media inquiries? Who is the command center referring ag questions too. Will the new 800# direct farmers, ranchers, etc. to the ag contact at the command center that can help address their emergency needs or is there another number we need to supply instead?

If you agree on sending an email then please feel free to edit the info below as you think is most appropriate. I know there is a process this needs to go through, but once approved, I can get it out ASAP. I think once we send an email to the ag groups, that will help point those who need assistance in the right direction.

Thanks.

Rebecca Perrin
